

## COACHERVERSION: A MODEL FOR RECOVERY COACH SUPERVISION<sup>®</sup>

Recovery Coach Academy

Recovery Coaches serve in a wide variety of settings and as such, the types of supervision for these coaches may also differ. In many cases, we see Peer Supervision models used as an attempt at Supervision which does not truly align with the Recovery Coaching model. CCAR created and utilizes a model for oversight that resonates most with the role of the coach – aptly named, Coachervision. Based on the concept of “Coaching Coaches”, this workshop provides participants with an understanding of supporting coaches in the wide variety of roles they play on a day to day basis, while developing their long-term success.

### **PARTICIPANTS IN THIS COURSE WILL:**

- Define expectations of Recovery Coach oversight
- Understand the complexity and intricacy of the Recovery Coach role
- Recognize how organizational culture influences a Coachervision model
- Learn the importance of accountability for both the Coachervisor and Recovery Coach
- Gain insight into supporting Recovery Coaches in a wide variety of settings

**This training provides 12 CEUs/Contact Hours.**
