

Who am I?

Describe yourself: Include things like your name, ethnicity, gender, marital/partner status, occupation, hobbies, interests, travels, accomplishments, hopes, dreams, goals, etc.

Using your list above, create all of the “groups” or roles that you feel represent, influence and matter to you.

Of the groups/roles you identified, choose the five that are the most important to your perception of who you are.

Use a pie chart to represent how those five groups/roles represent you.
